

Equipment for mini and backhoe excavators

INFORMATION 1

1					
	GP excavator bucket for 2.8 T	GP excavator bucket for 3 T	XHD excavator bucket	Skeleton bucket	<p>The above bucket has the correct mouldboard form, ensuring that it digs perfectly with the earth easily removed. The bucket below has an inefficient mouldboard form, which usually results in the bucket having to be shaken to remove the earth.</p>
2					
	GP excavator bucket for 3 T	GP excavator bucket	HD excavator bucket	V-Ditching bucket	
3					
	XHD excv. bucket w/QH mounting	Clay bucket	Asphalt cutter	Ripper tooth - available in all sizes	<p>Our new bucket range for mini and backhoe excavators has the same design as our large excavator buckets; curved side cutting edge, perfect bucket form and a filling performance, which makes it easy to empty the bucket.</p>
4					<p>Our bucket designs have evolved from many years of building and proving in the field, units to meet all types of customer applications.</p>
	Hydr. Tilt ditcher w/1 cyl.	Tilt ditcher w/angle sides	Unibucket	Unibucket 5-10 Tons
